

TagIt

What is TagIt? TagIt is an innovative computer program that tracks inventory, creates tags, and generates sales reports.

Who can use TagIt? Any individual that would like to sell items in a consignment event, garage sale, or other venue.

Why use TagIt? TagIt makes selling items more efficient and saves time! Other benefits include:

- No more handwritten tags!
- Download pre-approved tag requirements!
- Track your inventory!
- Generate reports from sales!
- Once an item is entered, you can create tags for any sale! Your data is always available!
- Helpful **tips** to make your sale more efficient!
- One time fee with free web-based updates!
- Enter data at your convenience!
- GREAT for consignment events and garage sales!

Convenience = More Items to Sell = **Increased Profits!!!**

How much does TagIt cost? Use our sale code **RRCTN13** for the 20% discount! The one time fee includes free updates.

Testimonials: *"TagIt has made preparing for consignment sales more efficient and less stressful...what a great system to track my inventory! I feel more organized...I have saved so much time!!!"* Patty, consignor

"[TagIt] has really helped me sort and tag my items...What a small price for a software program that can be used over and over again! Wow...what a time saver!" Lisa, consignor
